Saturday 20th - 27th August 2016

(See the website for evening opening)

Admission: **FREE**

Digital Art Exhibition

Join Interact Digital Arts and Genetic Moo at WotSPACE in Highcross for a week of digital art experimentation and free workshops.

Award-winning digital artists Genetic Moo use video projectors, lights and sound to create multimedia installations called Microwords.

They will be bringing their interactive artworks and digital creatures to Leicester for a unique one-week exhibition.

Full programme of activities available at
interactdigitalarts.uk/microworld

Interact Digital Arts Ltd is a digital arts practice focussed around the creative work of Sean Clark. We create artworks, undertake artistic commissions and collaborations, curate exhibitions and live events, and run workshops and training sessions. We are based in Leicester where we have a studio and co-manage Interact Labs, a digital art making space at Phoenix Cinema and Art Centre.

Supported by  Leicester City Council

All activities take place @

Wot SPACE

Highcross Shopping Centre

3 Shires Lane, Leicester

*(Opposite Bill's Restaurant
& Explore Learning)*

As well as the Microword, there will be free digital arts workshops running all week covering topics such as:

- **Computer Programming**
- **3D Printing**
- **Raspberry Pi**
- **Arduino Micro Controllers**
- **Robotics**
- **Computer Drawing**
- **Electronic Music**

There will be drop-in and bookable sessions for both children and adults.

 **INTERACT**
